Backend & Data: Node.js, REST APIs, PHP, Laravel, Supabase, PostgreSQL, MySQL, MongoDB, Python
AI & Automation: Anthropic Claude API, OpenAI API, Gemini, streaming responses, prompt engineering, RAG, structured data extraction, AI agents, chatbots, n8n, human-in-the-loop workflows, Claude Code
Cloud, DevOps & Tools: Vercel, Linux / Cloud VPS, Docker, Git, GitHub, GitHub Actions (CI/CD), Jest, SSH, WordPress, Webflow, SEO, Jira, ClickUp

PROFESSIONAL EXPERIENCE

Full-Stack & AI Developer | Saturday Education Consulting, Bangkok — Oct 2025 - Present

Study-abroad consulting company | Live platform in active development: saturdayeducation.com

- Led development of the company's study-abroad platform in Next.js, TypeScript and Supabase, featuring search across 700+ universities and 60,000+ courses and an admin dashboard for students, universities and leads.
- Designed psychometric career assessments that generate AI career and university recommendations and send counselors a profile report of each student's interests, skills and personality, cutting consultation prep time.
- Shipped a RAG-based AI university-advisor chatbot grounded in the platform's university and course data, plus document summarization and PDF report generation.
- Built an n8n agent on the Claude API that reads incoming university partnership emails, extracts the requested information into structured fields and drafts replies for human approval, cutting reply time from ~20 to ~3 min per email.

Freelance Full-Stack Developer | Bangkok, Thailand — May 2024 - Sep 2025

Siribaan Property Group: real estate platform (live) — siribaanproperty.com

- Built and deployed a fast-loading property platform with listing search, detail pages, inquiry capture and animated, responsive UI, plus an admin panel managing 50+ listings.
- Integrated Supabase database and storage for listings and media; owned Vercel deployment, configuration and production troubleshooting.

Other clients

- Delivered a React Native mobile app and SEO-focused WordPress websites.

Full-Stack Developer | mmRoute Technologies, Yangon, Myanmar — Oct 2022 - Feb 2024

- Built responsive, mobile-friendly business websites with PHP, JavaScript, HTML and CSS.
- Integrated third-party APIs, payment gateways and business tools; handled performance tuning, SEO, security updates and backups.

Junior Full-Stack Developer Intern | Clouud Solutions, India — Dec 2021 - Feb 2022

- Developed and tested features for a client CRM using Laravel, Vue.js, Inertia.js, MySQL and Tailwind CSS, working alongside designers and product managers.

Web Development Intern | Marter Solutions, Mandalay, Myanmar — Jul 2020 - Oct 2020

- Supported senior developers on a client project for MRCCI, contributing to frontend and backend tasks.
